63/A, Peer Bhoy Mansion Moreland Road Near Y.M.C.A Mumbai :- 400008

PROFILE SUMMARY

Motivated and results-driven Full-Stack Software Developer with 2+ years of experience building, scaling, and optimizing robust web applications. Proven track record in full-stack architecture, including implementing end-to-end e-commerce journeys on the ONDC network, designing responsive React.js admin panels, and deploying Redis caching layers to drastically reduce latency. Adept at driving technical efficiency, boosting platform performance metrics, and collaborating within cross-functional teams to deliver high-quality, scalable digital solutions.

KEY COMPETENCIES

Frontend Development,	Html,Css,JavaScript,Reactjs,Nextjs	Strong interpersonal skills
Backend Development	Node.js, Core Php	Proactive and self-motivated
Full Stack Development	vercel,git,github,deployment, hosting	Exceptional organisational skills

PROFESSIONAL EXPERIENCE

Mobilogi Technologies Pvt Ltd

Oct 2025- Present

Assistant Web Developer

Worked on **ZillyBuy**, a **government-backed ONDC e-commerce platform**, where I built the end-to-end frontend and backend journey and implemented features like "ZillyKart" to handle dynamic combo deals. By architecting a Redis caching layer to reduce server load and speed up data retrieval, I successfully boosted the website's overall performance score from a low 41 to a fast 71. Additionally, I developed and optimized a highly responsive Admin Panel using React.js and modern web technologies to seamlessly manage these advanced administrative features across both mobile and desktop. Alongside this, **I successfully delivered 5+ Project** as part of the company's internal proprietary software ecosystem. <https://zillybuy.com/>

Developed an internal **Employee Management System (EMS)** to handle daily staff operations. Built a smart attendance feature with a 200-meter radius restriction for secure clock-in and clock-out, alongside easy-to-use modules for tracking leaves, expenses, holidays, and full attendance history. I also created role-based admin panels so managers and employees have their own specific views, which automated everyday paperwork and made team management much smoother. <https://portal.mobilogi.com/>

Centeos Technology Pvt Ltd

Oct 2024 - June 2023

Jr Web Developer

Developed and optimized a highly responsive Admin Panel using React.js, JavaScript, HTML, and CSS, improving dashboard load times and delivering a seamless user experience across mobile and desktop devices.
